

Purpose Service Code	CAD TEMPLATE	Program ID	Recommended or Required Outcome	Recommended or Required Measure
3414 Child Care Health Consultation (CCHC) Model provides consultation, training, technical assistance to child care providers to address health or safety issues, assess the facility's health and safety status, and promote best practices for healthy and safe environments.	The Child Care Health Consultation model follows the North Carolina CCHC Service Model for implementation of the activity by providing the following services to child care facilities, staff and others as needed. Services that are provided using Smart Start dollars in this activity include: (1) Technical assistance: Technical assistance (in the form of consultation and coaching) provided to early childhood educators working in [Specify start-up, licensed and/or G.S. 110] child care facilities serving children birth to five years old. The Technical Assistance will be focused on improving the capacity of providers to identify	Required: Child Care Health Consultation (CCHC) And ECE Training	Required: Increase in the provider practice of healthy behaviors	Required: NC Child Care Health and Safety Assessment

	<p>and promote healthy and safe environments for children in child care settings. (2) Training for child care providers: Training for DCDEE credit hours provided on health and safety education related to topics and coordination of CEU opportunities. The NC Child Care Health and Safety Assessment will be used to conduct classroom-based assessments to develop a quality improvement plan, informing technical assistance and training. Documentation is maintained for all technical assistance and training. The Child Care Health Consultant (CCHC) is a Registered Nurse with a Degree in Nursing (ASN or BSN) or a health professional with a minimum of a Bachelor's Degree in health education or a health-related field. The health professional is or</p>
